Why Get Both THE GIRLS GUIDE AND JOURNEY

The Girl's Guide to Girl Scouting is a binder the girls can customize to make her own! Each binder is packed with information and badge activities to build her skills as she progresses through her years in Girl Scouting. Each guide is broken into three sections:

Handbook. Lots of important information here! For instance, the handbook shows where to put badges and awards on your uniform.

Badges. Contains a pull-out chart to track what she has earned as well as the requirement sheets to complete legacy and cookie badges.

My Girl Scouts. This is where she makes the Guide her very own. She can record her Girl Scout journey here, decorate the book and even write a letter to her future self to read years from now. The best part: it's a binder, so it's easy to add pages as she moves through Girl Scouts!

The Journey books take Girl Scouting to the next level. The LEADERSHIP level. No matter which Journey she chooses to travel, she will benefit from Girl Scouts' *Keys to Leadership*: Discover, Connect, Take Action.

Discover. She works to find her own values and what is important to her. She uses her talents to make a difference in an area that has meaning to her.

Connect. It's all about connecting with those around her; working together and solving conflicts as a team, all while building healthy relationships.

Take Action. She will take action to make the world a better place by using what she's discovered about herself.

ADDING IT UP

The Girl's Guide to Girl Scouting is all about SKILLS

The Journeys are all about LEADERSHIP

Put them together and what do you get? Girls learning skills that will allow them to become confident, courageous leaders!
